

## Student Scholarship Information

FFCU began its scholarship program in 1997. Each year \$5000 is divided up among those the Scholarship Committee feels meets the criteria of character, involvement in community and school, and financial need.

If you are interested in applying for a scholarship ask your local branch about application procedures. Typically, students are required to fill out an application outlining their financial status and plans and aspirations for their future and schooling. For more information, call the credit union at 800.837.3262 or pick up an application at any FFCU branch office after April of the year you are applying.
